FEATURES AND DESIGN DETAILS CABINET

Cold-rolled 20-gauge embossed steel with baked-on acrylic enamel finish.

DRIP TRAY

Concealed, lift-out design. High impact, durable plastic. Removable, anti-splash grid diverts drain water into tray.

TAPS

High impact durable ABS. Fast flow. Easy to clean.

REFRIGERATION SYSTEM

Quiet, air-cooled static-type condenser.

No fan required.

Sealed and lubricated compressor.

Protected against motor overload, Aluminium roll-bond evaporator coated with epoxy finish.

Capillary tube controls refrigerant.

Unit hermetically sealed. All joints telescoped and bazed removable insulation made of moulded expandable polystyrene. Moisture and rodent resistant.

COOLING RESERVOIR

Type 304 stainless, polished to a satin-finish for easy maintenance. (3.8 litres capacity)

External refrigeration coil mechanically wrapped around reservoir for maximum heat transfer, expanded bead polystyrene.

THERMOSTAT

Adjustable temperature control, conveniently located on back of cabinet for easy access.

POWER SUPPLY

220 Volts (+10%) 50/60Hz. Provided with three pin plug, and 180cm power cord. Units for other power supply available on special order.

DIMENSIONS (without bottle)

Floor standing: Height: 1030mm
Width: 340mm
Depth: 335mm

Table top: Height: 560mm
Width: 340mm
Depth: 335mm

SHIPPING WEIGHT

Floor standing hot/cold: 23kg
Table top hot/cold: 16kg

HOT WATER TANK

High quality stainless steel. Capacity 2 litres.

Easily accessible drain. Designed to prevent total drainage for heater element protection.

Baffle bypasses water cooling reservoir, permitting room temperature water to enter directly into heating tank.

HEATING ELEMENT

430 watts, instantaneously heating, thermostat controlled. Easily removable external heating element.
