coffee beans, 3 instant canisters + sugar.

### IRIS 6S

6 canisters for instant beverages.

### ABSOLUTE FLEXIBILITY

All the Iris models are equipped with Flash microprocessor technology electronics programmable with software in Windows environment. With WinBlanchi - Group Software it is possible to combine the selection buttons with any product. Furthermore, the product canister layout can be adapted to any specific customer request. With the Flash/Serial interface it is possible to connect the distributor to a PC or Palm PC, allowing the programming and the complete configuration of the vending machine. The data settings can be saved on file or on Data Key and transferred to more machines of the same model.
